

hi! my name is bee-bee.
you might or might not
have seen me in your
neighborhood. i wake up
every day with the sun and
i head to work. i love
my job! i hope you love
your job too 😊

i'm surrounded by hundreds
of flowers every day! who
doesn't enjoy flowers?!

i make honey
every day - most
bees do! (my
friend bee-boo
doesn't because
she's a
little old,
but i make
enough for
both of us!

sorry about my
handwriting! if you
have trouble reading,
ask my human friend margan!

i'm a very young bee and
i haven't seen a lot of stuff in my
life, but today i witnessed something
really cute that made me cry;
a baby human was carrying
my product and she was
so happy! i hope she
likes my honey and
grows strong.

i'm really happy today! today i realized
i contribute to the society and am
a useful being ;)

i hope you're happy with
what you do just like me!
with love and honey, bee-bee ♡

hey there, my name is
bee-bee. i witnessed
something horrifying today.

that made me really sad. i cried a little
bit and went to my friend bee-boo :-

today i saw people eating my honey, our
honey, but they dont realize that we
dont have enough honey for
ourselves... i love humans, but i wish
they could understand... :-

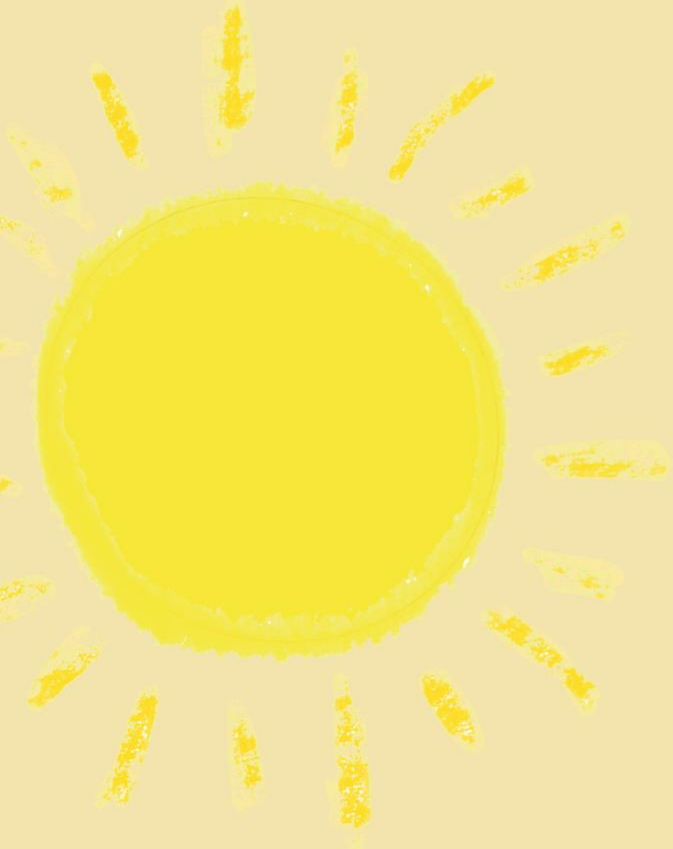

i work a lot
to make honey.
it's a big responsibility

i'm a young
bee but
i never get
to hang out
with my
friends, because

i have to
provide for
my family and
my friend
bee-boo

i wake up
every day with
the sun, sometimes
i dont have breakfast
because we dont have
enough food...

im a young and happy bee, but
i dont know if this all is worth it. i cant
protect my product that i work for so much,
maybe im useless... and should stop... ☹️
